Bespoke graphics tufted

The art of Custom Graphics Tufting is all about getting the most out of small geometric & linear designs, to create distinctive and highly functional floorcoverings that work with a particular decorative scheme.

All our stock tufted graphics ranges are proven heavy contract performers, manufactured in our own extensive tufting facility in Blackburn, Lancashire.

Each range has an assortment of colorways which are ideally suited to most commercial locations.

All specifications subject to normal manufacturing tolerances.

Cut-pile carpets, may show shading/pile reversal. This tendency is inherent in all cut pile fabrics and is not detrimental to the wear of the carpet. It cannot be considered a manufacturing defect. It should be noted and taken into consideration when selecting colours that darker shades camouflage soiling more than lighter shades. This applies particularly to contract installations.
