In keeping with our philosophy of adapting to the ever changing market place, we now find ourselves in the position of also being the country's leading flooring provider to mosques & islamic teaching establishments.

Our in-house designers are capable of assisting you with the conception of individual ideas, recolourations & the specification of finished carpet to meet your particular performance & aesthetic requirements.

Designs for mosques (masjids) and prayer halls (jamatkhana) are generally characterised by a niche at one end, representing the mihrab in every mosque, a directional point (Qibla) to direct the worshipper towards Mecca.

All specifications subject to normal manufacturing tolerances.

Cut-pile carpets, may show shading/pile reversal. This tendency is inherent in all cut pile fabrics and is not detrimental to the wear of the carpet. It cannot be considered a manufacturing defect. It should be noted and taken into consideration when selecting colours that darker shades camouflage soiling more than lighter shades. This applies particularly to contract installations.
